

## FGP Food Grade Precleaner

# Precleaner Meets Highest Standards for Food Processing Applications

The FGP Food Grade Precleaner from Flexco is easy to install, easy to maintain, and disassembles in a snap for regular cleaning and sanitisation. The FGP Precleaner works on any belt from 100 mm to 1500 mm (4" to 60") and the blade is available in white, blue, metal detectable blue, and dual durometer blue.

*C-Dimension verification gauge makes it easy to set the proper pole location for optimal cleaner performance—the four optional mounting bracket designs help simplify complex installation*

*Cleaner blades are available in blue, white, dual durometer blue, and metal detectable blue*

*Simple to adjust spring tensioning unit ensures for maximum cleaning benefits*

*Simple snap in place blade design allows for easy disassembly in less than a minute – no need to remove cleaner from structure for cleaning or replacement. Reassembly is just as quick so your line is up and running again fast.*

### Features and Benefits:

- **Minimal hardware** so installation, tensioning, and blade replacement are easy.
- **Simple design** with stainless steel components and food grade materials limit crevices and opportunities for bacteria growth.
- **Easily tensioned** to minimise blade wear, eliminate belt damage, and maximise cleanability.
- **Optional metal detectable blue blade** for additional protection against food contamination.
- **Dual durometer blade** with metal detectable tip for uneven or soft cover belts.
- **Available in standard blade widths** for belts from 300 mm to 1500 mm (12" to 60"). Blades can be cut down to appropriate length.
- **Compatible** with endless and mechanical splices. Suitable for use on modular belting.

Patents: D776,396 and 0029948222-0001

# FGP Food Grade Precleaner

## Specifications:

- **Temperature Range**  
UHMW:  
-29°C to 60°C (-20°F to 140°F)  
Dual Durometer:  
0°C to 60°C (+32°F to 140°F)
- **Blade Height**  
76 mm (3.0")
- **Blade Width Range**  
102 to 1524 mm  
(4" to 60")
- **Pole/Mounting Material**  
304 Stainless Steel
- **Blade Hardness**  
UHMW:  
63D Shore Hardness  
Urethane:  
85A Shore Hardness
- **Pulley Diameter Range**  
50 to 267 mm (2" to 10.5")
- **Blade Material**  
Food-grade UHMW, UHMW  
with Stainless Steel, or  
Urethane with PVC

## How to choose the correct size blade for your conveyor.

1. Measure your belt width.
2. Choose the Blade Width that corresponds to your belt width.
3. Measure your conveyor width.
4. Verify the Maximum Conveyor Width shown in the selection chart is larger than your conveyor width.  
If your conveyor width is smaller than the maximum width shown, choose the next larger blade width that accommodates your conveyor width.
5. Blade and/or pole can be cut to users required length. Pole must be 50 mm (2") longer than the outside width of conveyor structure at the mounting location.

## Pole Lengths

Pole Length		Standard Blade Length		Minimum Blade Length		Minimum Conveyor Width at Cleaner Mounting Location		Maximum Conveyor Width at Cleaner Mounting Location	
mm	in.	mm	in.	mm	in.	mm	in.	mm	in.
610	24	305	12	229	9	279	11	556	22
813	30	457	18	229	9	356	14	708	28
965	36	610	24	229	9	508	20	861	34

## State-of-the-Art Endless Splicing Technology

Creating a perfect endless splice can be challenging – especially when every second of downtime is costing you money. With the Novitool® Aero® Splice Press, endless belt splicing just got easier, faster, and more consistent. The Aero Press is ideal for splicing lightweight, thermoplastic belting, and with cycle times as short as 8 minutes, the Aero allows your belt to be up and running fast, helping you minimize downtime and maximize productivity.

### Quick Cycle Time

- Short cycle time of 8-12 minutes
- Forced air cooling in both top and bottom beams, along with fast cycle times allows the press to be used in a high volume belt shop splicing environment
- Portability, easy set up, and short splice time allows for on-site splicing with little downtime

### Easy to Program

- Intuitive, easy to navigate HMI controls
- Over 1,000 splice recipes can be stored on the press

### High Quality Splices

- Flexco has designed and constructed the press with the latest technology to ensure the finished splice is the highest quality for splice longevity
- Storage and retrieval of splice recipes ensures they are consistently used from operator to operator, and from tool to tool, for any specified splice parameter

- ✓ Internal Controls
- ✓ Internal Air Compressor
- ✓ Internal Top & Bottom Air Cooling Fans

Patent number: US 9,090,022 B1 and other Patents Pending

### Intuitive HMI Controls

The Human Machine Interface (HMI) controls and simple menu navigation allows users to enter or access splice parameters with ease.

- Scroll through and select text using the convenient rotary dial
- 4 lines of text display on screen
- Menus are simple and intuitive
- All splice parameters are managed through the single control
  - ▷ Top temperature
  - ▷ Bottom temperature
  - ▷ Pressure
  - ▷ Time
  - ▷ Preheat
  - ▷ Cool down temperature
  - ▷ Recipe storage and access

*Programming the Aero® Press is particularly easy with an HMI control panel, and the intuitive scroll through navigation means you'll be producing your first high quality splice in no time.*

*An exclusive feature of the Aero® is the ability to **store over 1,000 recipes** on the press.*

**Integrated Air Cooling** – cooling fans are positioned in both **top and bottom** beams, reducing cool down time after splice is complete. **Average splice times of 8-12 minutes** can be expected.

**Wide Effective Heat Zone** of 150 mm allows for easy positioning of the splice within the press.

**Designed to Meet Stringent Safety Requirements,** The Novitool® Aero® has been assessed by an independent company to meet CE requirements for high safety, health, and environmental protection, demonstrating the Flexco level of commitment to both Safety and Quality for our customers.

# NOVITOOL® AERO®

## Splice Press

Ability to set **independent temperatures** of top and bottom heating elements to ensure optimal splice.

The Aero Press **accommodates multiple voltages** based on the power cord selected. Refer to the chart below.

Aero® Voltage Compatibility						
VOLTAGE	625	925	1225	1525	1835	2135
110V 1PH	X	X	X			
230V 1PH	X	X	X	X	X	X
230V 3PH	X	X	X	X	X	X
400V+N3PH	X	X	X	X	X	X
400V 3PH				X	X	X
460V 3PH				X	X	X

**Portable storage case** makes transport easy and includes storage for power cords. Shallow bottom makes it easy to remove larger presses.

## Aero® Recipe Management Tool

The proprietary Flexco Aero® Recipe Management Tool makes it easy to import, create, or modify recipes. Recipes can then be exported from the tool and transferred to your press via a USB flash drive. Users with multiple presses can quickly load the same set of recipes to all of their equipment.

99 recipes can be input and stored directly on the press, while 990 additional recipes can be input through the Aero Recipe Management Tool on your computer and transferred to the press via a USB flash drive.

The Recipe Tool allows for easy entry and modification of recipes. Recipes can be categorized in "Groups" for quick access.

Load saved recipes to ensure consistent, high quality splice performance, regardless of which technician is operating the press.
